

EQUIPMENT - EPOS

Introduction

- Our approved EPOS system is designed and built by Flipdish (Jinoby). The system can be adapted to any country across the world and developed in-house to suit all local requirements.
- The system training will be completed online via courses and modules and can also be trained out by the operations team.
- Each country has a support function who are based across the world and working through different time zones to ensure full support is provided.
- The menu is managed by either Chicken Cottage head office or by the Master franchisee.
- You can find all relevant training session using this academy link -
